How Does the Quality of Health Services
Increase with **Artech Mobile Stations?**

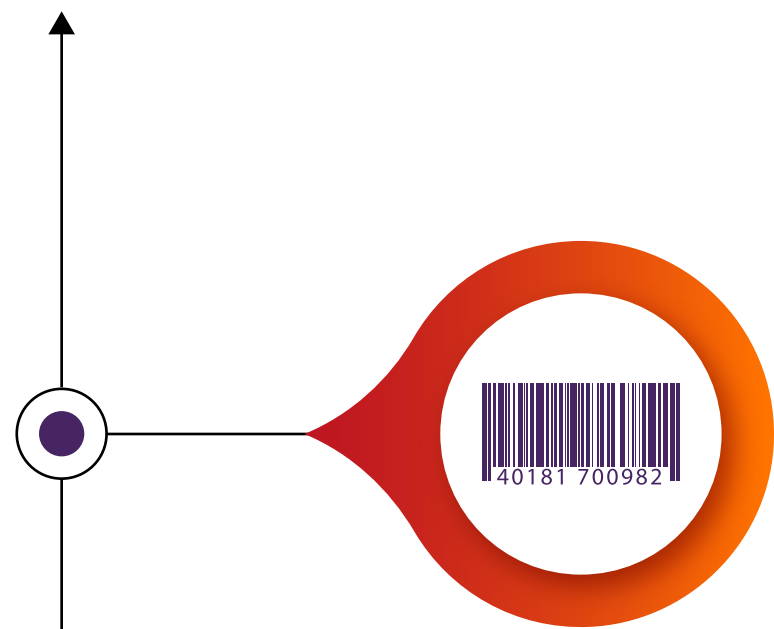

- Artech Mobile Medical Stations significantly improve the efficiency of nurses and other healthcare professionals by increasing the quality of healthcare services.
- Designed for critical areas such as intensive care, these ergonomic and portable digital workstations help healthcare professionals reduce medical errors caused by fatigue and stress.
- Its easy portability and user-friendly design allow healthcare professionals to be more comfortable and focused in their work environment, thus enabling them to provide better quality and efficient service to patients.

- Artech Mobile Medical Station is a solution that can easily be used in various treatment areas, such as intensive care units, emergency services, polyclinics, and patient floors.
- This station minimises possible errors in the treatment process thanks to the integrated medical computer, barcode reader and digital checklists.
- Allowing doctors and nurses to focus more on patients significantly increases patient satisfaction.
- The use of Artech Mobile Medical Station improves the quality of healthcare services, reduces the workload of healthcare staff and supports excellence in patient care.

WHAT ARE THE BENEFITS OF USING MOBILE MEDICAL STATIONS?

Artech Mobile Medical Station allows medicines and medical consumables to be recorded in the system with a barcode reader, allowing them to be tracked effectively.

Produced by hygiene standards, this station can be quickly disinfected in general hospital and intensive care areas, thus significantly reducing the risk of surface contamination.

Due to its durable and long-lasting structure, Artech Mobile Medical Station offers economic benefits over handheld devices and reduces healthcare institutions' costs.

Artech Mobile Medical Station uses digital checklists to reduce potential medical errors, especially medication errors, and significantly increase patient safety.

With this station, which can be used flexibly in intensive care units, patient floors, and other areas, the quality of healthcare services throughout the hospital increases, thus improving the integrity and efficiency of the service patients receive.

Artech Mobile Medical Station has been developed using a user-centred design approach. This approach significantly increases nurses' comfort in their working environment and improves the quality of care they provide to patients.

As a result, hospitals can provide safer and higher standards of service to their patients. This innovative station improves both healthcare professionals and patient satisfaction, significantly improving the overall quality of healthcare services.

Why Artech Medical Computer Solutions?

- Domestic Production and Domestic Software.
- Customer orientation and sustainability.
- Artech Medical Computer products have a modular and maintenance-free structure and offer a fast and uninterrupted technical service with up to 3 years warranty and five years spare parts support.
- Rigorous quality control and high customer satisfaction.
- Each device is tested in our test laboratory, located in our factory, and then delivered to our customers after passing through quality processes.
- Compliance with international standards
- Our products have CE certificates.
- Artech medical computers and operating theatre consoles are designed for sterile hospital environments, have 93/42/EEC medical device certification and are manufactured by IEC-60601 medical device, electrical and safety standards.

With video and data integration for a simple, secure and more modern working environment, we enable healthcare staff to focus on the best possible patient care.
