Tele-Visit System

What is the **Artech** **Tele-Visit System?**

- Artech Tele-Visit System is a solution that enables contactless calls, which are especially important in intensive care units during the pandemic period. With this system, without the need to register on any platform or open an account:
 - Patient relatives can communicate with their patients via video and receive information about their patients by meeting with the relevant doctors.
 - Doctors can see their patients on video and conduct remote consultations. This protects patient safety and is critical for informing and reassuring patients and their families.

TELE-VISIT SYSTEM FEATURES

Hardware Features:

-  Medical standard computer with anti-bacterial keyboard and mouse, designed for intensive care conditions.
-  Mobile mobility can be adjusted according to different usage needs with height and angle settings.
-  21-inch high-resolution touch screen and wireless data communication feature.

Software Features:

User-friendly interface for high-quality video calls and ease of use.

Compatible with any device accessed via browser, no need to install additional applications.

Call invitations can be sent via cell phone or email, and up to 6 people can be called simultaneously.

Call durations are unlimited but can be limited by the administrator.

It pays attention to protecting personal data and ensures users' privacy and security.

Developed using advanced, domestic software technology.

Why Artech Medical Computer Solutions?

- Domestic Production and Domestic Software.
- Customer orientation and sustainability.
- Artech Medical Computer products have a modular and maintenance-free structure and offer a fast and uninterrupted technical service with up to 3 years warranty and five years spare parts support.
- Rigorous quality control and high customer satisfaction.
- Each device is tested in our test laboratory, located in our factory, and then delivered to our customers after passing through quality processes.
- Compliance with international standards
- Our products have CE certificates.
- Artech medical computers and operating theatre consoles are designed for sterile hospital environments, have 93/42/EEC medical device certification and are manufactured by IEC-60601 medical device, electrical and safety standards.

With video and data integration for a simple, secure and more modern working environment, we enable healthcare staff to focus on the best possible patient care.
