# With Artech Digital Signage and Kiosk Solutions

---

- We offer professional solutions in imaging and information technologies, enabling you to establish the most effective communication with your target audience.

# Outdoor Information Displays: The Meeting of Impressive Communication and Durability

Artech outdoor information displays are designed specifically for your corporate needs and offer the most effective and innovative solutions to establish strong communication with your customers.

- **Unique Design and Color Options Suitable for Your Architectural Decoration:**  
With special design and colour options that reflect your organization's identity, outdoor displays convey information and offer an aesthetic added value.
- **Resistance to Harsh Weather Conditions:**  
Our displays are designed to provide reliable performance in all seasons and resist harsh weather conditions, so your content is always delivered in an eye-catching and impressive way.
- **Instant Problem Analysis and Quick Resolution with Remote Connectivity:**  
With advanced remote connectivity, any problem is instantly identified and resolved. This ensures a seamless communication experience.

ARTECH Outdoor Information Displays.

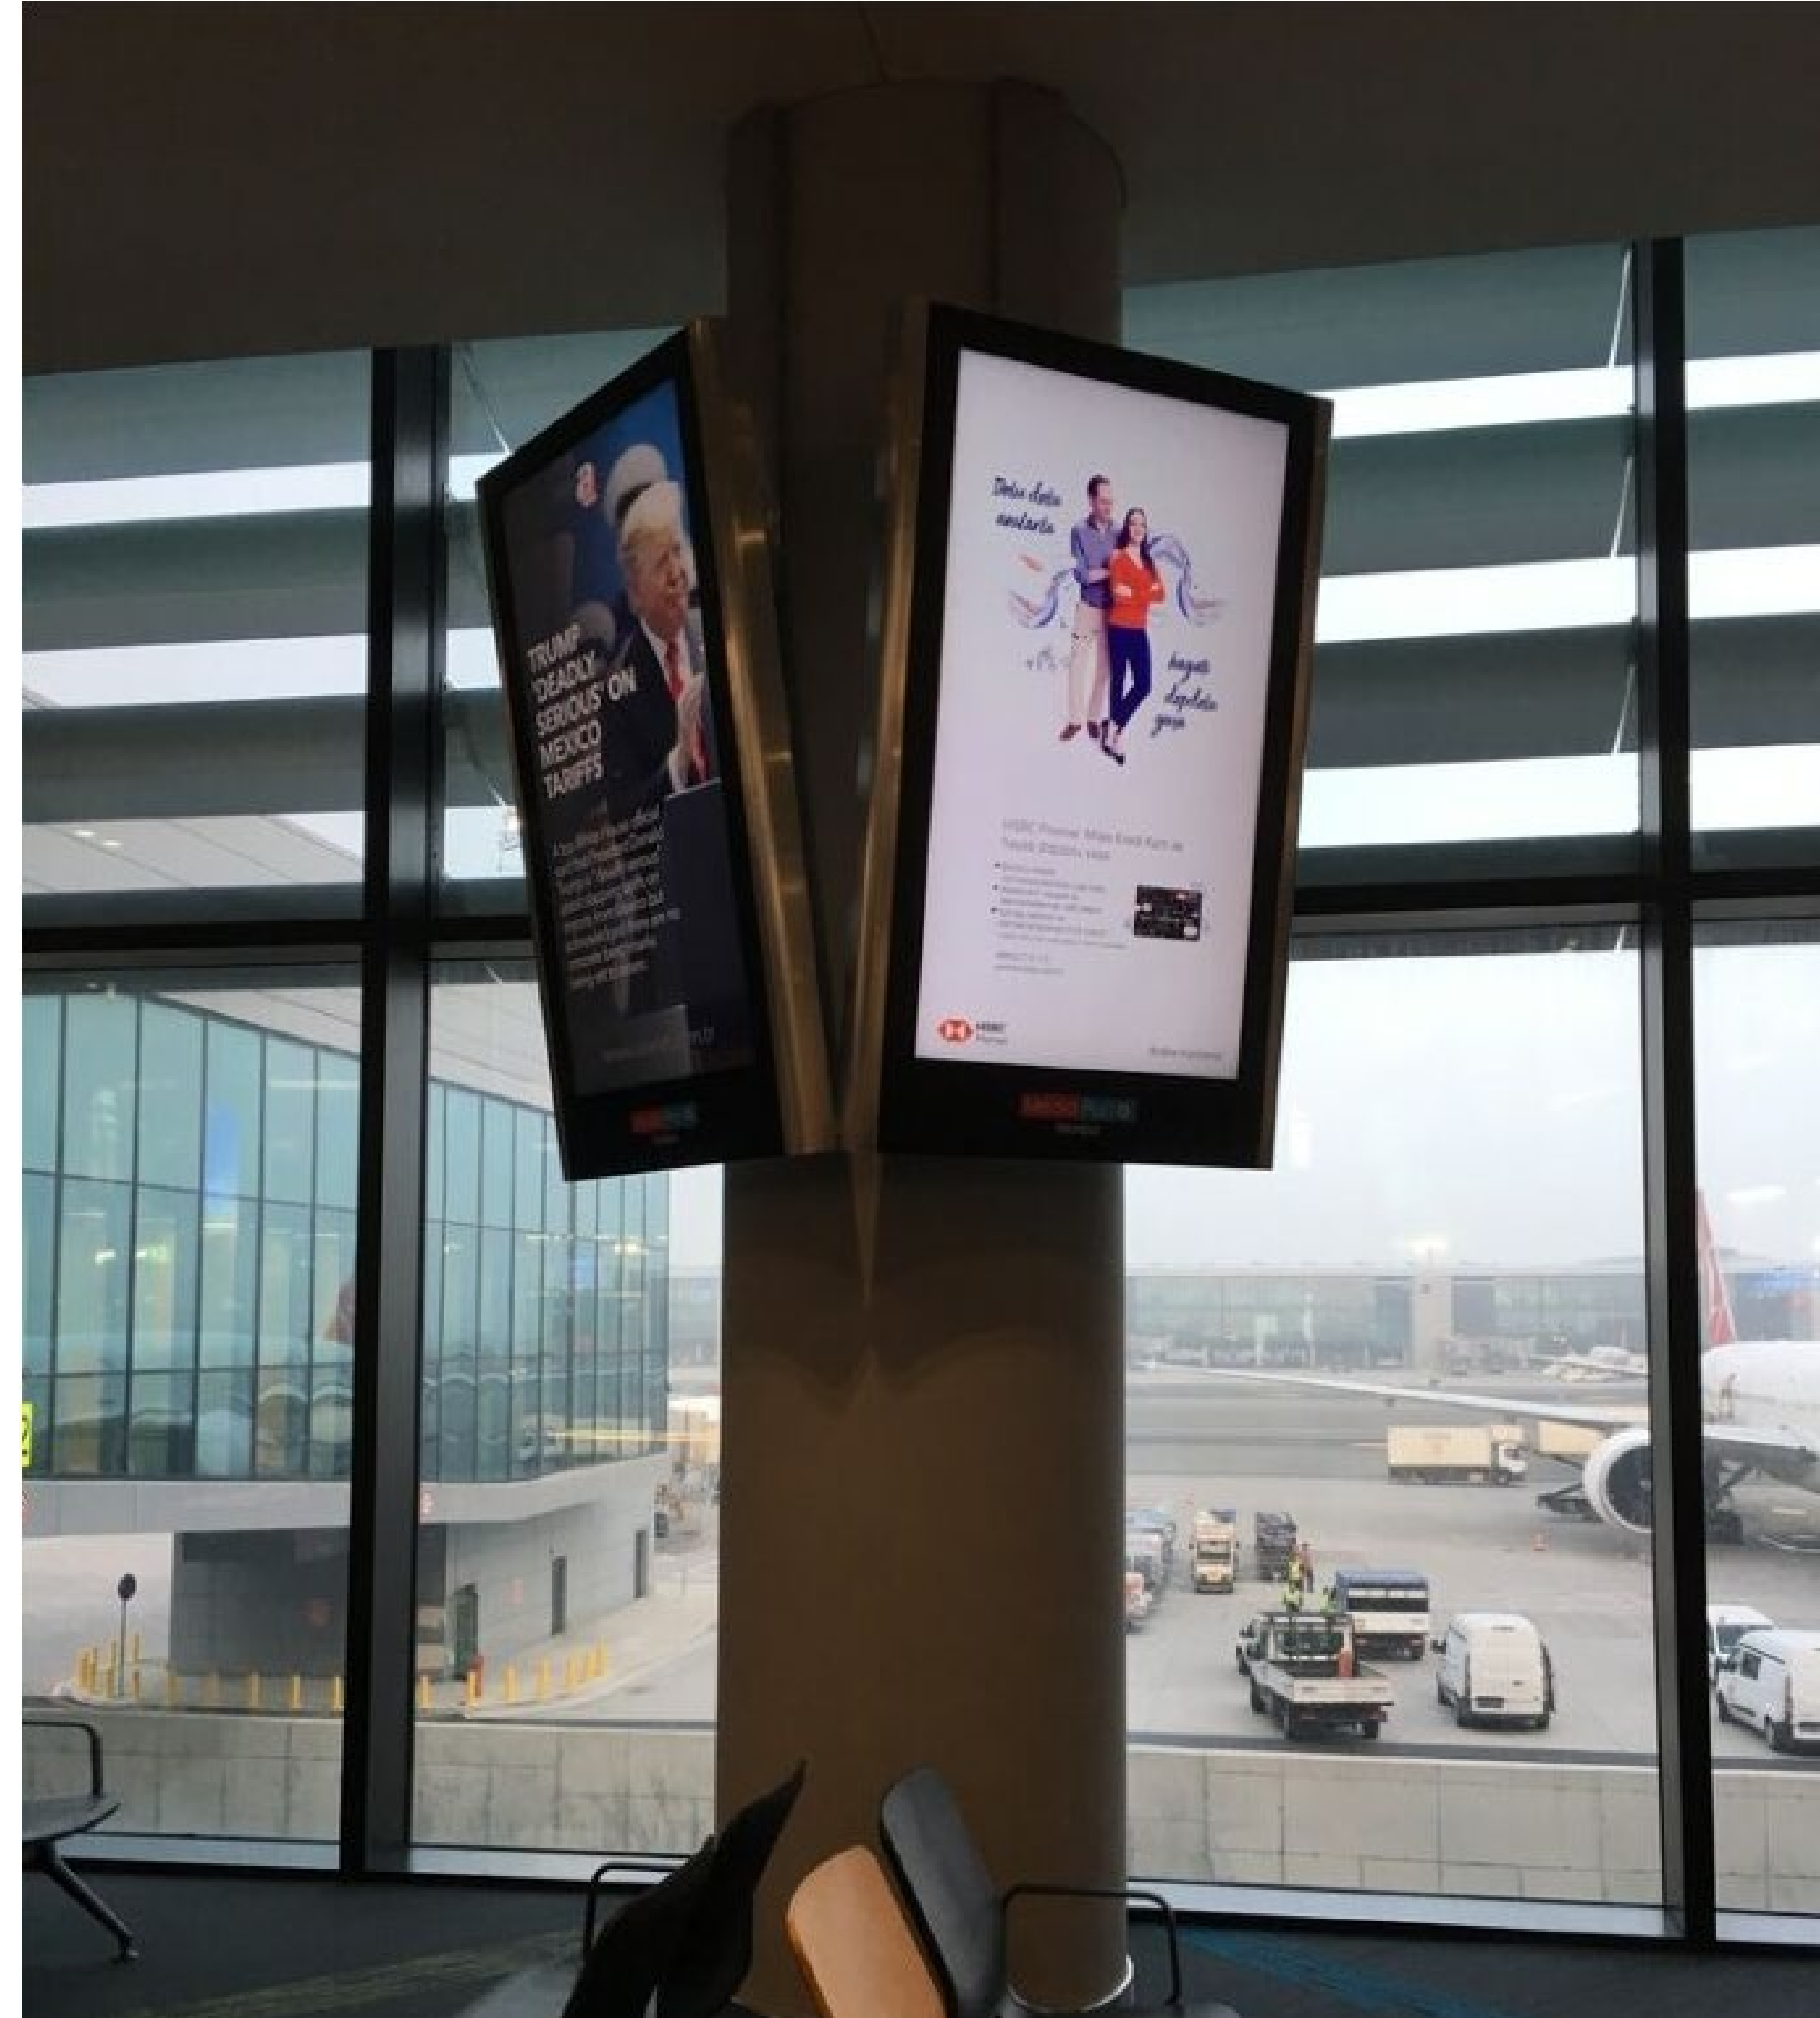

# Indoor Information Displays: Smart, Aesthetic and Functional Solutions

Artech Information Displays are an innovative solution designed specifically for your corporate needs. They combine functionality and aesthetics. They can be managed from a single centre and easily publish different content.

- **Corporate Logo and Color Options:**  
With unique logo and colour options that fully reflect your corporate identity, the screens strengthen your brand value.
- **Impact Resistant Stainless Metal Body:**  
The hard, impact-resistant stainless metal body ensures long-lasting use and preserves the physical integrity of the screen.
- **3 mm Anti-Glare Shatterproof Glass:**  
3 mm thick anti-glare shatterproof glass minimizes reflection and glare while ensuring the long life of the screen with its durability.
- **Protection Against Dust and Moisture with Precision Filter:**  
The filter system protects the sensitive electronics inside from dust and moisture, improving the display's performance and ensuring long-lasting use.
- **Instant Problem Analysis and Solution with Remote Connection:**  
The advanced remote connectivity feature ensures that any problem is detected instantly and resolved quickly. This guarantees the uninterrupted operation of the display.

# Outdoor Totem: **The Digital Solution That Makes a Difference in Outdoor**

Artech Outdoor Totem is an innovative digital information solution that allows you to realize your advertising, promotion and information activities without being affected by environmental conditions. Its aesthetic design and touch options offer the most suitable solutions for your corporate needs.

- **Durable Design, Customized Color and Logo:**  
With its durable design, Outdoor Totem guarantees suitability for outdoor conditions. At the same time, it highlights your elegance and brand value with unique colour and logo options that reflect your corporate identity.
- **Vandalism, Dust and Water Resistance:**  
The totem is made of durable materials and is highly resistant to vandalism, dust, and water. This feature ensures long-lasting use and reliable performance.
- **Ease of Remote Management and Updating:**  
The ability to remotely manage your Totem and update content improves business continuity and allows content to be changed on the fly.

# Indoor Totem: **A Digital Solution to Revitalize Interiors**

Artech Indoor Totem is an innovative digital information solution that allows you to realize your advertising, promotion and information activities without being affected by environmental conditions. Its aesthetic design and touch options offer the most suitable solutions for your corporate needs.

- **Elegant Indoor Design:**  
Indoor Totem offers a remarkable appearance in your company's interiors with its aesthetic design. It revitalizes interiors with its elegant design that harmonizes with the architecture of the space.
- **Touch Interactive Features:**  
Totem allows users to interact with the content with touchscreen options. Your visitors can interact with your products and services interactively.
- **High-Resolution Screen:**  
Its high-resolution screen allows content to be displayed clearly and vividly, increasing visual interaction and ensuring more effective communication of content.
- **Durability Suitable for Indoor Conditions:**  
Totem uses durable materials designed for indoor conditions. This ensures long-lasting use and reliable performance.

# Door Information Screen: First Interaction upon Entry

Artech Door Information Displays are designed to emphasize your corporate identity and architectural decoration. These screens provide practical guidance and information in different environments, such as unit doors, meeting rooms and conference rooms.

- **Broadcasting Current Information and Announcements:**

Door Information Screens allow you to communicate current information and announcements to your visitors quickly. With instant updates, your staff and guests are always informed.

- **Unique Design for Your Organization:**

Every organization's needs are different, and these screens can be equipped with custom designs for your organization. They emphasize your corporate identity with colour options, logo integration, and unique content.

- **High-Resolution Display:**

The high-resolution screen clearly and impressively displays information and content. It strengthens information communication by prioritizing visual quality.

- **Durable, Industrial Stainless Case:**

Door Information Displays' industrial stainless steel case offers long-lasting use. Its resistance to external factors ensures reliable indoor performance.
