

Artech Tele-Visit solution has been developed to make contactless visits in intensive care units. With Artech Tele-Visit Solution, patients' relatives can visit their inpatients and get information from the relevant doctor. Doctors can also monitor the patient's condition and make a remote consultation with the video call feature.

Personal contact information of the healthcare professional who is in the interview or accompanying the patient is not shared with the patient's relatives and is protected by doing the interviews via Artech Tele-Visit Video Call Platform.

Features;

- ✓ Computer with electromagnetic and safety compatibility required for medical standards and intensive-care conditions.
- ✓ Suitable for general hospital and intensive care hygiene with its anti-bacterial equipment.
- ✓ Anti-bacterial keyboard and mouse
- ✓ High resolution and 21 " touch screen.
- ✓ A smooth conversation experience with high image and sound quality
- ✓ Up to 6 people can make video calls in the same session
- ✓ Wireless data communication
- ✓ User-friendly application interface
